

Paragliding World Cup 2006 Fiesch – Feedback

„From pilots, for pilots“ - the PWC credo was very important to us for this World Cup. Our goal was to center everything around you, the pilots, to make you feel welcome, comfortable, maybe even a little spoiled, here in Fiesch. So now that the event is almost over, we'd like you to take a couple minutes to let us know how well we managed to achieve this goal.
